OVER THE YEARS

Commentaries based on cataloging over 300 sales and 51 years in numismatics - since 1928
(including THE LARGEST A.N.A. SALE EVER HELD-1977)

The incredible rise in values for top condition coins and currency overshadows the steady increase in prices for the "less than perfect" coins. Collectors wanting to assemble a set or series can in many instances do so at a "reasonable" price if they are content with a "nice appearing" specimen. The demand for "defect free" circulated coins, particularly for the earlier pieces has been sufficiently strong to send current values at 50% more than that prevailing a year ago for the more popular ones.

Copper coins, particularly Half Cents and Large Cents, seem to be starting to catch up with silver and gold, if the results of the Garrett sale in New York are any criteria. While we could adjust to some of the prices realized, it was difficult to relate to an 1847 cent in spectacular condition bringing \$10,000. We managed to acquire a few pieces such as the Conway & Co. \$5 gold piece for \$100,000 (a real bargain!) for our Private And Territorial Gold collection (on display at the Old San Francisco Mint) but dropped out of the bidding for the Brasher Doubloon (the first privately issued gold coin) at \$700,000. Since another specimen will be coming upon the market in 1980, we will have another chance.

The brochures for the FOUNDATION FOR NUMISMATIC EDUCATION, INC. mailed out with our last auction catalogs resulted in an increase in our mailing list of those interested in Numismatic Education. Hopefully, more "collectors" will become "numismatists" (informed collectors) and receive added enjoyment from the hobby, rather than just acquire coins and currency for an "investment" (we must admit they have proven to be an excellent investment over the years).

An increasing amount of Don's time is being devoted to lectures and seminars. Galley proofs are starting to come through for his book on Private and Territorial Gold Coins and Patterns of the U.S. Publication date has been set by Arco Publishing Co. for early 1980.

HOW TO BID

What to Bid On:

As you read through the catalog for the first time, record the numbers of all the lots you are interested in on a worksheet. If you are interested in specific types of coins, be sure to check the catalog index.

How Much to Bid:

The price you bid is determined by you. You must remember the value that you place on the coins. Check the values listed in the catalog and decide what you are willing to pay. You should bid generously on the lots you strongly wish to obtain. If there are some lots you would like to have 'if the price is right', then you may want to place nominal bids on those lots. Because a number of collectors choose to bid on many lots, the number of successful bids will be relatively small. This is controlled by a very active market. **You can safely extend your bidding** (and take advantage of a 'bargain') by placing a dollar total limit on your bids. Should your total be reached before all your bids are executed, we will then terminate your bidding.

Remember that your bids are limits. It is possible, and quite often does occur, that you will succeed in purchasing a lot for less than your bid since we start the floor bidding at about 5-10% above the second highest mail bid. Example: You bid \$500.00 on the lot and the next highest mail bid is \$400.00, we start the lot bid at \$425.00. If there are no bids from the floor, you will then be awarded the lot at \$425.00 - or if the floor bidding stops at perhaps \$450.00 or \$475.00 then you will receive the lot at a small advance above the top floor bid. If bidding continues above the \$500.00, then that floor bidder will be awarded the lot.

How to Fill Out the Bid Sheet:

On the Bid Sheet you will observe that there are two different column headings. Lots and Bids. When you decide on the lots you want to bid on, enter the lot numbers under the proper column and the maximum amounts you are willing to pay for those lots in the proper column.

LOT	BID	LOT	BID
482	550.00		
517	900.00		
614	130.00		

If you have circled one of the increase percentages, you will be allowing us to increase your maximum bid in order to obtain the lot which is going for more than you had anticipated. We will buy the lots for you as low as possible as outlined in the TERMS OF THE SALE.

GRADING STANDARDS

We use Dr. Sheldon's numerical grading system for the grading of U.S. Coins. This is the system that has been used with great success by sophisticated numismatists for many years and now adopted by the A.N.A. We use the following abbreviations and descriptions:

POOR-1	Barely recognizable as to type.
FAIR-2	Showing minor detail.
ABOUT GOOD-3 (AG-3)	Rims worn down into lettering but interior detail visible.
GOOD-4,6	All interior outlines visible.
VERY GOOD-8,10 (VG-8,10)	About 25% of the interior detail will be visible, date barely readable.
FINE-12,15	30% to 50% of the interior detail will show.
VERY FINE-20 through 35 (VF-20,25,30,35)	60% to 85% of the interior detail will show. 35 (Borderline EF).
EXTREMELY FINE-40,45 (EF-40,45)	90% of all interior details will show.
ALMOST UNCIRCULATED 50, 55 (AU-50, 55)	Bare traces of friction at the highest points. 55+(Borderline Unc).
UNC-60 (MS-60)	Strictly Uncirculated with no rub or friction, i.e. NO WEAR.
CHOICE BU-63 (MS-63)	A Choice Uncirculated specimen nicely struck and with nice luster.
GEM BU-65 (MS-65)	A Gem coin in all respects. Fully struck. Only a bare minimum of minor abrasions (marks).
SUPERB GEM BU-67 (MS-67)	If you look real hard with strong magnification you might find a faint flaw.
PERFECT GEM-70 (MS-70)	Once in a great while, a perfect coin is sold
PROOFS & SPECIMENS	Proof and Specimen are methods of manufacture, not grades. All of our Proofs, Specimens, and Proof-Likes are graded in the same manner as our business strikes (examples: Proof-55, Proof-60, CHOICE Proof-63, GEM Proof-65, SUPERB GEM Proof 67).

CURRENCY

GOOD	Well worn but all devices legible.
VERY GOOD	Fairly well circulated but quite legible.
FINE	Some circulation but with decent color and some crispness.
VERY FINE (VF)	A few folds with much of original crispness.
EXTREMELY FINE (EF) or(XF)	Two or three light folds, light soiling or handling marks.
ALMOST UNCIRCULATED (AU)	A single fold or several tiny corner folds.
CRISP UNCIRCULATED (CU)	No fold or corner creases! Corner may be rounded or note not completely centered but no creases (i.e. broken fibers) can be evident.
CHOICE CU	A brighter or fresher note with full borders although one or two may be slightly off-center.
GEM CU	Brightness and well centered, sharp corners.
SUPERB GEM CU	Perfect centering and bright colors. As nice as the day it was printed.

Artificially processed notes will be so described.

REGARDING ANA CERTIFICATION

KAGIN'S ARE PROVIDING COMPLETE AMERICAN NUMISMATIC ASSOCIATION CERTIFICATION OF YOUR RARE AND UNUSUAL COINS. We at Kagin's think that this certification service is essential in assuring the authenticity of the coins you purchase. This certification service guarantees you the genuineness of the material handled in a Kagin's Auction. **FOR ALL OF THE COINS FEATURED WITH PHOTOGRAPHIC REPRODUCTIONS ABOVE THEIR RESPECTIVE LOT DESCRIPTIONS WE WILL FURNISH ON REQUEST AN ANACS CERTIFICATE.** We are pleased to provide this service for our consignors at no extra charge.

The American Numismatic Association Certification Service, ANACS, is a branch of the federally chartered, non-profit, educational American Numismatic Association. The professional staff at ANACS examines and when necessary, will conduct non-destructive tests on numismatic material submitted for certification. The results of these tests are then furnished to the person submitting the item along with a statement of ANACS opinion concerning the authenticity of the coin.

All coins that are determined to be genuine, are then issued a certificate of registration. This certificate records an identifying code number, a statement of authenticity and documented photographs.

Kagin's is the only auction company that offers this ANACS for all the major coins featured in our auctions. This is a valuable benefit that Kagin's is able to offer you. It protects the collector and the consignor. You will be able to take advantage of this essential service when you consign your coins to a Kagin's auction.

\$5 GOLD (CAPPED BUST)

"MINT STATE" \$5 1806 POINTED 6

1228. 1806 POINTED 6, 8X5 STARS, BU-60, Brilliant Uncirculated with Wire Edge Both Sides, pinpoint edge nick. Lovely strike and appearance, faint "mint equalization marks" on reverse done to the planchet at the Mint at time of manufacture to bring it into the proper weight. David Akers in his book on Half Eagles states "This is the scarcest Half Eagle of this type after 1798. Most specimens are softly struck in the centers". While the obverse center is a bit soft struck, the reverse is REMARKABLY SHARP! Comparable specimens of the "commoner" dates of this type fetched upwards of \$10,000 at the recent Garrett Sale in N.Y.; surely this much rarer date worth upwards of 15,000.

PERSONALIZED INVESTMENT SERVICE

Many auction bidders ask us for advice on how to invest in rare coins. Collectors who are building specific collections often ask which dates to buy first, or which condition of coin is best for them to obtain, etc. Other bidders ask us simply for the "best opportunities for investment."

In response to these requests, we have developed the Kagin Numismatic Investment Program — a program which differs from all others.

You receive the personal attention and service of A.M. (Art) and Don Kagin who work with you to develop an individually-designed program that will meet your specific needs.

A.M. Kagin is a professional numismatist who has been active in numismatics for more than 50 years.

Don Kagin is the recipient of the first Ph.D. conferred in numismatics.

We will personally service your account, making suggestions for acquisitions and making sure your collection meets your individual needs.

Kagin's is particularly noted for:

U.S. currency— We edit and publish the **Donlon Catalog of Large Size U.S. Currency 1861 to 1923**. (New 1979 edition just published). Our currency Investment Program includes only **Choice** and **Superb** Notes selected from the **Largest Inventory of U.S. Currency available**.

Pioneer and Territorial Gold— Don Kagin is currently writing the book that will be the new guide for Pioneer and Territorial Gold. When the book is published, rarity ratings will be drastically changed on a number of coins, and there will be fewer "bargains". Avail yourself of this service **NOW** before prices advance further.

Whether you wish to collect specific coins or to make general investments, our Investment Program offers you the following additional services:

- Inclusion in Keogh Retirement Plans and Individual Retirement Accounts.
- Pension Funds.
- Numismatic Tax Counseling.
- Personal Consultations.
- Personalized programs designed to fit your individual needs.
